### **April M. Wilson Takes Hands-On Action With Habitat for Humanity and CDWBA**

[April M. Wilson](#) joined with members of the Capital District Women's Bar Association and Women Build to help an Albany family realize their dream of home ownership. Women Build is a Habitat for Humanity International program that empowers women to take hands-on action against poverty housing conditions in their local communities and to address the housing crisis facing millions of women and children across the globe.

The CDWA team worked on the Women Build house being constructed on Alexander Street in Albany's South End. April is seen here installing sub-flooring on the second floor of the new building.

For information on the Capital District Habitat for Humanity, and future opportunities to volunteer, see [www.capitaldistricthabitat.org](http://www.capitaldistricthabitat.org)
